DOCTORAL STUDIES

University of Oxford, PhD in Social Policy (economics track)

2019 - present

Essays on Social Policies to Support Unemployed Workers

Supervisor: Brian Nolan

Visiting Positions

Massachusetts Institute of Technology, Sloan School of Management

2023

Supervisor: Nathan Wilmers

University of California, Berkeley, Department of Economics

2022 - 2023

Supervisor: Emmanuel Saez

PRE-DOCTORAL STUDIES

London School of Economics (LSE), MSc in Political Economy (with Distinction)

2016

Vienna University of Economics (WU), BSc in Economics (with Distinction)

2015

RESEARCH

Job Market Paper

“[Employing the Unemployed of Marienthal: Evaluation of a Guaranteed Job Program](#)”,
(joint with Maximilian Kasy)

ESRC Prize for Outstanding Early Career Impact, 2023

Innovation in Politics Award, 2023

Horowitz Foundation for Social Policy dissertation grant award, 2022

We evaluate a guaranteed job program launched in 2020 in Austria. Our evaluation is based on three approaches, pairwise matched randomization, a pre-registered synthetic control at the municipality level, and a comparison to individuals in control municipalities. This allows us to estimate direct effects, anticipation effects, and spillover effects.

We find positive impacts of program participation on economic and non-economic well-being, but not on physical health or preferences. At the municipality level, we find a large reduction of long-term unemployment, and no negative employment spillovers. There are positive anticipation effects on subjective well-being, status, and social inclusion for future participants.

Working Papers

[“Reframing Active Labor Market Policy: Field Experiments on Barriers to Program Participation”](#), (joint with Anna Schwarz)

Austrian Economic Association (NOeG) Dissertation Fellowship 2023

Governments struggle to attract unemployed workers to their widely offered job training programs. In three randomized field experiments with 50,000 job seekers, we investigate the barriers to participation in job training programs by using informational interventions designed to encourage participation. Raising awareness about the availability of job training increased program enrollment by 18%. Signaling program cost with a voucher on top to reduce internalized stigma increased completion by 28%. Effects were sizable and concentrated among women and low-income job seekers. Notably, increased job training did not result in higher employment or wages. These findings indicate that while low-cost informational interventions effectively boost participation, the overall success of job training programs in enhancing employment prospects hinges on their fundamental design.

[“Begging thy Coworker: Labor Market Dualization and the Wage Growth Slow-Down in Europe”](#), (joint with Paul Ramskogler and Aleksandra Riedl)

Barnett Prize for the best paper of the year by a research student at DSPI, Oxford, 2021

SASE Early Career Workshop Award, 2022

As temporary employment has become a pervasive feature of modern labor markets, reasons for wage growth have become less well understood. To determine whether these two phenomena are related, we investigate whether the dualized structure of labor markets affects macroeconomic developments. Specifically, we incorporate involuntary temporary workers into the standard wage Phillips curve to examine wage growth in 30 European countries for the period 2004-2017. Relying on individual-level data to adjust for a changing employment composition, we show, for the first time, that the incidence of involuntary temporary workers has strong negative effects on aggregate wage growth. This effect, which we name the competition effect, is particularly pronounced in countries where wage bargaining institutions are weak. Our findings shed further light on the reasons for the secular slowdown of wage growth after the global financial crisis.

[“Worker Organization and Firm Performance: New Evidence from Union Membership Registries”](#), (joint with Emanuel List)

OeNB Anniversary Fund Grant, 2023 - 2025

Do unions increase workers' wages at the expense of firm performance? For the first time at the national level, we exploit union membership records in Austria to understand this relationship.

We show that worker organization goes hand in hand with higher wages without negative implications for labor productivity or firm profits. Works councils are more important than union density. Union density matters at the sectoral level where collective bargaining takes place while works councils shape wages at the firm level. Works councils matter most for low-road employers, while union density affects particularly high-road employers, consistent with rent-sharing theories.

AWARDS AND GRANTS

Total amount awarded: € 540,000.

Awards

ESRC Prize for Outstanding Early Career Impact (£ 10,000)	2023
Austrian Economic Association (NOeG) Dissertation Fellowship (€ 4,000)	2023
Innovation in Politics Award (joint with Marienthal Job Guarantee project team)	2023

WU International Research Fellowship (€ 6,000)	2023
Horowitz Foundation for Social Policy dissertation grant award (\$ 7,500)	2022
UC Berkeley Fellowship 2022/23 of the Austrian Marshall Plan Foundation (\$ 6,000)	2022
SASE / Digit 2022 Early Career Workshop Award	2022
IZA Summer School in Labor Economics travel award	2022
Oxford-Santander Academic Travel Award (£ 1,250)	2022
Barnett Prize for best paper of the year by a research student at DSPI, Oxford	2021

Scholarships

Scatcherd European DPhil scholarship at the University of Oxford (£ 45,000)	2019 - 2023
Saven European DPhil scholarship at the University of Oxford (£ 25,000)	2019 - 2023
UK Economic and Social Research Council (ESRC) DPhil scholarship (£ 13,000)	2019 - 2023
Institute of New Economic Thinking (INET) YSI conference scholarship (€ 200)	2016
MSc merit scholarship from the Chamber of Labour (€ 4,150)	2015 - 2016
BSc merit scholarship from the Vienna University of Economics (€ 400)	2014 - 2015

Large grants (≥ € 100,000)

Co-PI for “Labor Unions and Firm Productivity” (€ 249,000) from the Central Bank of Austria (OeNB) with Emanuel List (PI)	2023 - 2025
--	-------------

Medium grants (≥ € 10,000 - < € 100,000)

PI for “Reframing training for job-seekers” (€ 59,400) from Public Employment Service (AMS) with Anna Schwarz	2022 - 2026
PI for “Unionization and Firm Performance” (€ 60,000) from Chamber of Labour with Emanuel List	2022 - 2023
Research England’s HEIF and ESRC Impact Acceleration Account (£ 10,000) through the University of Oxford’s COVID-19 Urgent Response Fund with Marek Naczyk (PI), Mary Daly, Bernhard Ebbinghaus and Tim Vlandas	2020

Small grants (< € 10,000)

DSPI Student Support Fund, University of Oxford (£ 500)	2023
St Edmund Hall Graduate College Grant, University of Oxford (£ 1,000)	2023
Co-PI for Scholarship of Teaching and Learning (SoTL) from WU Vienna (€ 4,725)	2022
“Fostering international knowledge transfer in higher education: Oxford Tutorial meets WU Vienna” with Severin Rapp	
St Edmund Hall MCR Academic Endeavours Grant, University of Oxford (£ 325)	2022, 2023
PI for “Training vouchers for job seekers” (€ 9,000) from Public Employment Service (AMS) with Anna Schwarz	2021 - 2026
PI for a survey of job seekers (€ 4,000) from Public Employment Service (AMS) with Anna Schwarz	2021
ESRC Research Training and Support Grant (£ 2,330)	2019, 2022
St Edmund Hall College Grant, University of Oxford (£ 1050)	2019, 2021, 2022
PI for “Wage growth in Europe” from the Central Bank of Austria (OeNB) (€ 3,000)	2019 - 2020
ESRC Overseas Fieldwork (£ 600)	2019 - 2020

PRESENTATIONS

Invited Talks

2024 (**scheduled**): IAB, IZA, University of Graz, Public Employment Service Austria

2023: European Parliament, European Commission, MIT IWER, MIT Sloan ESWG, University of Cambridge, University of Oslo, Norwegian University of Science and Technology, Bard College, University of Duisburg-Essen, Johannes Kepler University Linz, Territoires zéro chômeur de longue durée, German Academic Scholarship Foundation, Ministry of Labour and Economy (Austria), Public Employment Service Austria.

2022: OECD / IZA, United Nations, UC Berkeley Economics, UC Berkeley IRLE, UC Berkeley IES, FEPS, IZA / Sheffield / Econtribute, SASE, Oxford BSG, Economic Policy Club, Public Employment Service Austria, Arbeit Plus, Chamber of Labour Austria.

2021: OECD, ILO, Oxford BSG, Covid-19 PHSM, Bertelsmann Foundation, ETUI, SZEF, Chamber of Labour, Diskurs, Vienna University of Economics and Business, Public Employment Service Austria, Netzpolitischer Abend.

Conferences and Workshops

2023: SOLE, LERA, EALE, ESPAnet.

2022: AFE U. Chicago, IZA Summer School, SASE (2), ISA RC28, ESPAnet, BUIRA (2), Oxford (3).

2021 **and prior:** ESPAnet, ESPAnet Workshop, ESPAnet Working Group, SPA, PSA, InGRID: Experimental designs in social policy research, Villa Vigoni Conference, Global Forum on Democratizing Work, University of Glasgow Symposium, Oxford (7), ESRC (2), INET YSI.
